

2017 CHEMICAL AND BIOLOGICAL DEFENSE SCIENCE & TECHNOLOGY CONFERENCE

Call for Papers
Opens March 14, 2017

KEY FOCUS AREAS

Novel Threat and Disruptive
Chemical and Biological Discovery

Dynamic Functional Materials

Applied Mathematics and
Innovative Computational Tools

Flexible Design, Synthesis and
Manufacturing

Systems Biology and Engineering

Disease Surveillance,
Characterization and Point
of Need Diagnostics

Adaptive Medical Therapeutics
and Technologies

Rapid Response and Recovery
Science and Technology

Threat Activity Sensing and
Reporting

The Future of Chem/Bio Defense Starts With You

Do you have ground-breaking
research that you want to share
with the chem/bio defense
industry?

Your Opportunity Is Here: Answer the Call for Papers

Take part in defining the future
of the chem/bio industry by
presenting at the 2017 CBD S&T
Conference. For your work to be
considered, you must submit an
abstract through the CBD S&T
Conference website no later
than **June 9, 2017**.
