

Advancing Biology-Inspired™ Engineering

FELLOW

Roy E. Young

Roy E. Young is elected to grade of FELLOW of the Institute of Biological Engineering. As a charter member and former president of IBE, Dr. Young continues to advance the IBE and its mission. He has represented IBE and the Biological Engineering profession to our constituents and our peers. He has worked to bring industrial representation and relevance to IBE and the profession. He has worked to bridge the gap from rigorous academic treatments to practical industrial acceptance. In his administrative and teaching roles, Dr. Young continues to foster transition to new paradigms of engineering and biology.

An IBE FELLOW has a recognizable and demonstrable record of unusual and exceptional achievement and accomplishment in a specific sector of Biological Engineering. Their achievement and accomplishment advance the profession of Biological Engineering.

The Institute of Biological Engineering encourages inquiry, application and interest in biological engineering in the broadest and most liberal manner and reaches out to engineers, scientists and professionals internationally to advance Biology-Inspired Engineering.

Presented at the
2008 IBE Annual Meeting
Chapel Hill, NC
March 8, 2008

Christina D. Smolke
IBE President
