

Poster Competition

UNDERGRADUATE STUDENT WINNERS

Third Place Winner

***Linking Watershed Characteristics to Multi-Drug Resistant and ESBL
Producing Aeromonas spp. and E. coli in Recreational Lakes***

Maggie O'Neill, Timothy Neher and Michelle Soupir

Second Place Winner

Increasing Microbial Production of Biotherapeutic Curcumin by Testing Different Feruloyl-CoA Synthases

Kendall Ewert, Kylee Hillman and Jixun Zhan

First Place Winner

Lanthanum-Doped Carbon Dots for Rapid Phosphorus Sensing in Environmental Samples

Samuel Holberg, Jacob Jones, Diana Vanegas and Eric McLamore

Poster Competition

GRADUATE STUDENT WINNERS

Third Place Winner

A highly versatile fungal glucosyltransferase for specific production of quercetin-7-O- β -D-glucoside and quercetin-3-O- β -D-glucoside in different hosts

Jie Ren, Wenzhu Tang and Jixun Zhan

Second Place Winner

Development of Low-Cost Monitoring Systems for Mercury Pollution Near ASGM Sites in Alto Cauca, Colombia

Kelli McCourt, Paulina Rojas-Lamos, Lisseth Casso Hartmann, Irene Velèz-Torres and Diana Vanegas

First Place Winner

Atmospheric Cold Plasma Effects on Properties of Milk Proteins

Shruti Sharma and Rakesh Singh
