Advancing Biology-Inspired Engineering

IBE 2027 CONFERENCE
BIOETHICS ESSAY COMPETITION

OPEN TOPIC THIS YEAR

Graduate and undergraduate students are invited to submit an original 1,000 to 1,200 word essay on **any bioethics topic of your choice** related to biological engineering.

The track chair will select 3 to 4 finalists, who will read their essays aloud at the 2027 IBE Annual Conference. No slides or video: just your ideas and your voice. Finalists are scored by a judging panel on written content and oral presentation, with a small audience vote.

Cash awards are given for first, second, and third place. The first place essay is considered for publication in the Journal of Biological Engineering, the official journal of IBE.

Due by: February 28, 2027

Submit on EasyChair and select "Bioethics Essay Competition" as the relevant track.
